The model of the product submitted to type examination meets the requirements of the PN-EN ISO 20347:2012 (EN ISO 20347:2012) standard and relevant essential requirements included in Chapter 2 of the Ordinance of the Minister of Economy of December 21st, 2005, Journal of Laws 05.259.2173 and Attachment No.2 to Directive 89/686/EEC.

Characteristic of the personal protective equipment model submitted to the type examination and the information providing the basis for the issuance of the present certificate are laid down in the attachment to the EC type examination certificate.

Period of validity: from February 2nd, 2018 to February 1st, 2023

Note on the usage of insocks

The test on antistatic properties of footwear with insock were conducted.

Only such insocks can be used that have been tested together with aforementioned footwear and which provide antistatic properties specifies in PN-EN ISO 20347:2012.

The application of the footwear/insock combination must be approved by a notified body.

The producer or producer's authorised representative is under the obligation to notify the Leather Industry Institute - Centre for Certification about intended changes of the product covered by the present certificate.

The Head of the Centre for Certification

M.Sc. Eng. Agnieszka Pietrzak

Lodz, February 2nd, 2018
